

April 13th 2005 Training Committee Meeting

Members Present:

Michael Banks

Alicia Burns

Rose Chambers

Elissa Sessley

Deb Yarnell

- Discussed the June 21st class at MECC (Mifflin TWP, Gahanna)
- Mulled over topics we can present
 - Speaker from BCI to discuss CCH interpretation, rules, Mike will contact BCI
 - Medflight presentation/demonstration? Rose will talk to contacts at Medflight
 - Speaker from Ohio AG's office in reference to Ohio Public Records/HIPAA considerations, Alicia will contact Lisa from the AG office
 - Discussed presentation on telematics, VOIP, dispatcher wellness, as contingency plans in case the above options will not work out.
- Elissa discussed the possibility of charging a nominal fee, perhaps \$20, per student to cover costs and continue our philosophy of providing low cost training and saving chapter funds for courses where the tuition/registration would be more cost prohibitive to the attendee.

- Project 33 only touched briefly due to time constraints, email from Bill Hinkle handed out to show some of the steps to take and the road ahead for bringing the new standards to law.

- Maps passed out illustrating coverage area for regional outreach, if you need to know where you represent, let me know!

- Feedback forms to pass out at classes, Alicia stated that its best not to leave blank lines to fill in as they may not always be filled in. Providing a few options to choose from would give more complete feedback to us.

- Next meeting is April 21st, immediately following the State APCO chapter meeting. If you

need to contact somebody to speak at the class please do so by this date so we can get people scheduled and move on with our next class.

Thank you for those that stuck it out to talk on Wednesday, if you couldn't make it out, I understand, I hope to see you all this coming Thursday!
