NEW APCO Teammates in Action

A Recognition Program for all Public Safety Communication Professionals

In our profession, we often see examples of dedicated going above and beyond the call of duty and the ProCHRT committee wants to recognize these teammates on a national level. This program allows everyone to nominate a teammate and tell us how they went into action.

This program is not meant to take the place or be equal to the APCO International Public Safety Communications Awards Program. Teammates in Action is instead meant to recognize that everyday work that is done by thousands upon thousands of Public Safety Telecommunicators across the globe. Rather than reward a body of work, this program recognizes an act or action during a singular incident. Overlooked far too often are the heroic actions taken daily by telecommunicators. This program hopes to bring these to light and give everyone a chance to recognize these daily actions.

HOW IT WORKS

1. Anyone working in a public safety communications center or answering point can be nominated, including but not limited to, public safety communications telecommunicators, supervisors, managers, directors and/or administrators, trainers and coordinators, quality assurance personnel, IT personnel and radio technicians.
2. Anyone can be a nominator (co-worker, supervisor, director, etc.). Just complete the form below.
3. The ProCHRT committee will receive these nominations and members of the social media work group will review the submissions and submit recommendations for recognition to the full ProCHRT committee.
4. Once a nomination is selected by committee for recognition, a member of the media social work group shall:
 - a. Contact the direct supervisor and/or director at the center to confirm the actions.
 - b. Confirm in writing what details of the story are approved for publication.
 - c. Request additional materials such as photos, newspaper articles, etc. which may be added to the social media recognition article.
5. Recognized teammates will receive an electronic certificate and an article recognizing the teammate in action will be posted on ProCHRT social media platforms.

From the Member and Chapter Services Committee

Dear APCO Officers and Members,

The Member and Chapter Services Committee (MCSC) supports the membership at the chapter level by building relationships with chapter leaders. Each MCSC member is assigned to represent Chapters and throughout the year they maintain information flow with the chapter leaders. We are here to keep APCO members informed of association policies, governance guidelines, and other APCO programs. Just as important, we push issues from the local level to the APCO leadership level. We work for the people and strive to make sure you receive all that you can from your APCO membership.

MCSC members work diligently to get program questions or information out to the local chapters, gather the needed feedback, and get answers back to the APCO organization. We share information about programs, training, and initiatives supported by APCO International as well as upcoming events through the monthly MCSC e-Newsletter.

MCSC works to build relationships among chapter leaders through training classes and webinars hosted during the year. We also assist the APCO organization staff to provide chapter leader training and workshops at the annual conference. But, we need your help to make these things happen. You can assist us by:

- Keeping your Chapter officer list up-to-date with APCO headquarters.
- Submitting information about upcoming events or programs in your Chapter for the e-Newsletter.
- Keeping the contact information of your MCSC representative handy so if you have questions or need anything you can call on us to help.
- Participating in chapter officer calls, webinars, and training so that you are up-to-date with the current information.
- Letting your MCSC representative know who to contact in order to get information about your chapter if the President of your Chapter is not the primary contact person..
- Looking for the monthly e-Newsletter and providing us with feedback through your chapter.

We are very fortunate to have members on the MCSC who support APCO and are willing to volunteer their time to make sure that APCO can meet its vision to strengthen our communities by empowering and educating public safety communications professionals. As a committee, we look forward to continuing to work with you!

Sincerely,

Member and Chapter Services Committee
